

Notes

1. This is an advanced portable "roll up" sign to be used only by Queensland Police Service to warn motorists of emergency services attending a roadside incident ahead.
2. Sign are to consist of a flexible micro prismatic construction that is high frequency welded to a reinforced vinyl backing having a minimum reflectivity of Class 1.
3. To enable the sign to be mounted to stationary emergency vehicles, the sign should be manufactured with a minimum of 7x 25mmx 5mm Neodymium discs magnets (4 along the top and 3 along the bottom). These magnets are to be encapsulated within reinforced vinyl on the back of the sign.
4. The sign shall also be fitted with 2 x 6mm PVC reinforcing strips (top and bottom) along with rubber mounting straps to enable appropriate attachment to roadside guide posts.
