B	2500	2300	50	150	300	200DN	160	250	590	1430	180DN	260	150

#### Notes:

1. Depending on the road type (state-controlled or local-controlled), the department of Transport and Main Roads (TMR) regions or local councils are responsible for choosing suitable locations for signage. The Queensland Police Service (QPS) is responsible for the manufacture and installation of the signs as part of the camera installation process. Signs should only be installed at locations approved by TMR and QPS. Contact the QPS Traffic Camera Office (1300 360 610) for approval process.
2. This sign is installed closest to a fixed speed camera site - Specifications must be in accordance with requirements set down in the *Camera Detected Offence Program Signage Policy*.
3. Where physical space does not allow the proper installation of TC1675\_1 refer to narrower sign shown in TC1675\_4.
4. Refer to TC1674 for the sign to be installed furthest from a fixed speed camera site.
5. Edge strip comprises 30 mm x 30 mm or 50 mm x 50 mm blue and white checker.
6. For existing speed camera sign locations, the supplementary plate "FOR ROAD SAFETY" TC1675\_3 may be used in conjunction with TC1675\_2, to reinforce the road safety initiative. See pages 2 and 3 for details.
7. Signs require a clear film overlay fitted to protect the signs from graffiti.
