B	2700	2300	50	150	260	160DN	170	200DN / 135LC	200DN	250	590	300	1433	150

Notes:

- Depending on the road type (state-controlled or local-controlled), the department of Transport and Main Roads (TMR) regions or local councils are responsible for choosing suitable locations for signage. The Queensland Police Service (QPS) is responsible for the manufacture and installation of the signs as part of the camera installation process. Signs should only be installed at locations approved by TMR and QPS. Contact the QPS Traffic Camera Office (1300 360 610) for approval process.
- This sign is installed closest to the first camera in a point-to-point system, within approximately one kilometre from the camera site. The distance from the camera site must be in accordance with requirements set down in the *Camera Detected Offence Program Signage Policy*. Contact if required: TMR Speed Management Unit (Road Safety Policy).
- The distance stated on this sign will include the distance from this sign to the last camera in the point-to-point system. Contact the TMR Speed Management Unit (Road Safety Policy) for further clarification if required.
- * Insert appropriate distance e.g. 25.
- Refer to TC1897 for the sign to be installed closest to the last camera site in a point-to-point system
- Where physical space does not allow the proper installation of this sign refer to narrower sign option shown on page 2.
- Edge strip comprises 30 mm x 30 mm or 50 mm x 50 mm blue and white checker.
- Signs require a clear film overlay fitted to protect the signs from graffiti.

Colour Legend

	Retroreflective blue
	Retroreflective white
