

Notes:

1. * Legend is Futura Bk BT or equivalent
2. # Legend is Helvetica Bold or equivalent.
3. This is a low cost temporary sign and is designed to be printed on coreflute.

General Notes

This temporary sign has been developed by Main Roads in collaboration with NRM to assist in the governments cooperative implementation of the Queensland Weed Strategy.

This sign is to be installed temporarily within the road reserve in areas that;

- have been reported as possibly containing declared weeds and have not yet been inspected; or
- have been identified as having declared weeds and are yet to be or undergoing treatment.

The signs are designed to identify areas within the road reserve that are not to be disturbed as they contain weeds that are easily transferred by "weed seed spread". Weed seed spread may be facilitated through contact with vehicles, person or stock travelling through the area.

The signs identify areas within the road reserve that should be avoided by all road users including adjoining landowners / stock route users and Main Roads' maintenance staff or construction workers.

The signs are to be removed once the declared weed is no longer evident.

■ Transparent green (PMS 349) screening ink
□ Retroreflective white
