	Black

Notes

1. This sign has been approved for use on the Peninsular Development Road that is subject to intermittent but frequent flooding.
2. It should only be used as a threshold treatment to complement floodway signs installed in accordance with Part 2 of the MUTCD.
3. TC2087 may also be installed in conjunction with this sign at locations where intermittent flooding is likely to occur.
4. *Insert appropriate distance. (e.g. 100). Centre justify line to suit.
5. For use of this sign at other locations, contact:-
TrafficEngineering.support@tmr.qld.gov.au.
